Programme Timeline and Content

The Train-The-Trainer Programme is targeted at incubators and other service providers for impact enterprises in Bangladesh. As a participant, you will take part in an on-site training with local and international experts. You will also gain access to online materials to expand on your in-class learning.

The online training sessions will take place from mid-June to mid-July 2020 and will take different forms based on the exact Programme.

Roots of Impact, in partnership with LightCastle Partners, will deliver the training. The Programme will focus specifically on suitable approaches and solutions - including innovative financing options – adapted to the local regulatory environment and economic context.

As you embark on your own programmes of support to impact enterprises participating in the Voucher Scheme, you will continue to enjoy support from the Programme on a regular basis as you integrate the tools and knowledge from the training into your advisory work for the impact enterprise.
